- Low-impact product design using fewer materials, without compromising performance or comfort.
- The diaper core is made from FSC-certified cellulose, helping more sustainable forestry. The cellulose is totally chlorine free bleached.
- The diapers are produced with green electricity, certified by NaturemadeStar.

- The remaining CO2 emissions from the manufacturing process are offset through certified projects by myclimate (The carbon footprint of the product we reduced by more than 25% since 2010).

- The product is tested for harmful substances, by Oeko-tex Standard 100, Babyclass 1, Annex 4.

- The product is tested by Dermatest on sensitive skin.

Yeah!
